COMPANY PROFILE

For several years, Lanau Industries is known as a Leader in the dump body industry for its unique and innovative conception as well as the high quality of our products.

In a market in constant evolution, Lanau Industries distinguished itself with our approach towards clients and their specific needs, which brings a high satisfaction rate from our clients.

Since the beginning, Lanau Industries used high quality material to establish our good reputation, and will continue to do so. We are proud to use and promote the Hardox450 steel type when manufacturing our dump bodies, therefore promising an exceptional toughness and a weight economy towards those who use our products

Lanau Industries offers a complete range of products including conventional dump bodies, spreader, landscaping dump bodies as well as custom made bodies, therefore showing our flexibility to fulfill our clients' needs.
